ALLANDER LEISURE CENTRE

CONSTRUCTION UPDATE

The Allander Leisure Centre project continues to make good progress with the internal fit-out well underway on all floors. The new reinforced concrete tanks which provide the structures for the swimming pools are now complete with tiling works due to commence at the start of May. External envelope works are nearing completion, with the photo below showing the south elevation coming into view with completed facing brick as the external scaffold is dismantled.

SOCIAL VALUE

The McLaughlin & Harvey team went along to local Lullaby Lane Nursery in partnership with employability organisation Tigers. We gifted the kids branded hi-vis vests and goody bags and some of the team took part in fun activities.
