## ALLANDER LEISURE & DAY CARE CENTRE

### Construction Update

Since our last newsletter we have made good progress on the project - the foundation phase is nearly complete and we achieved one of our key milestones with the commencement of the structural steel frame. The weather over the period has been mixed of late, but work continues - in sunshine and in rain!

Steel erection continues at Phase 1

Foundations & steel frame in progress

### Social Value

In the month of June, we engaged with Mosshead Primary School.

We supported the school with its Virtual Careers Fayre and pupils from P1-P7 took part in an art competition to design what they thought the new Allander Leisure & Day Care Centre would look like.

We had lots of great entries and in the coming weeks these will be displayed on our site hoarding.
