

Step 1: Choose your favourite Cactus

Step 2: Choose your colours for your Cactus and any flowers it may have

Step 3: Think about how your Cactus feels. Are the happy, sad, silly, tired, loud, shy or event giggly.

Once you have decided this begin drawing eyes and maybe even mouths that would express these emotions. You can use the examples or draw your own.

Step 4: Cut out carefully your eyes

Step 5: Colour your Cactus in

Step 6: Colour the pot

Step 7: Colour the table the Cactus pot is sitting on (think of a good pattern)

Step 8: Once you are super happy with your colouring in. Stick your cut out eyes on to your Cactus

Step 9: Sign your work (all good artists do this)

Finished!
